BUILDING A NEW GENERATION

Say "NO" to plastic bags...

...say "YES" to building a new generation!

## OUR PRODUCTS

All BANG bags are created by Bangladeshi artisans as part of our goal to build a new generation of consumers.

Each artisan earns a living wage, enabling them to aim for a stable financial future by lifting their families above subsistence levels.

All BANG bags are hand worked. Small irregularities are characteristic of products which are not mass produced.

## OUR PHILOSOPHY

To deliver eco-friendly, fairly traded goods giving consumers ethically produced goods at everyday prices.

To promote sustainable trade and employment, combining Bangladeshi handicraft skills with our contemporary Australian designs.

To augment our fair trade values by directing at least 10% of our profits back to local communities.

## BUILDING A NEW GENERATION

BANG (Building A New Generation) Consortium is an Australian company created by five enterprising mothers with the aim of combining the betterment of women and children in the developing world with a unique consumer label, featuring products appealing not only to socially aware Australians, but to mainstream consumers.

Consumers may not be aware that many of the gifts they buy each year are harmful to the environment. Many of these gifts may also be manufactured under conditions they personally would find intolerable.

We at BANG are offering consumers alternative beautiful products which uphold our social and environmental values.

## ECO BAGS

All our bags are hand made from Jute which is naturally recyclable.

### What is Jute?

Jute is a long, soft, shiny plant fibre that can be spun into coarse, strong threads. It is 100% naturally biodegradable and is one of the most abundant natural fibres second only to cotton in amount produced and variety of uses.

### BESSIE
